# Imagine You Are an Emergency Department Doctor

# The Problem

Clinicians have limited visibility into their procedural experience.

Why is there no data visibility?

- Poorly organized collection
- Non uniform software systems
- Red-taped access to data

# The Solution

## What is MSight?

Visualize procedural experience

Insight into training needs

## Features

Procedural History

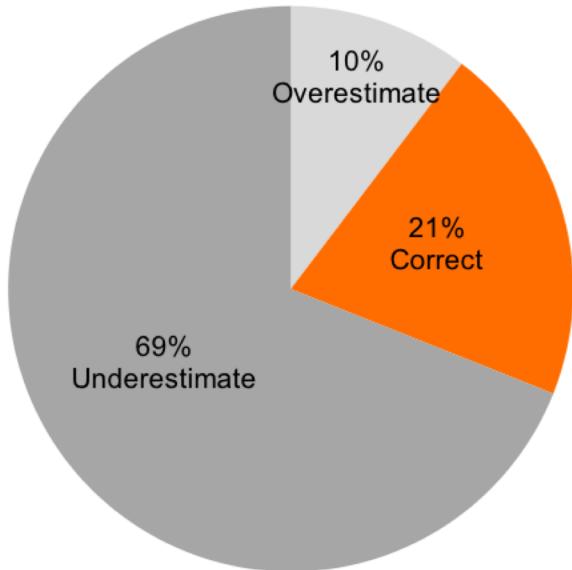

Credentials

Training suggestions

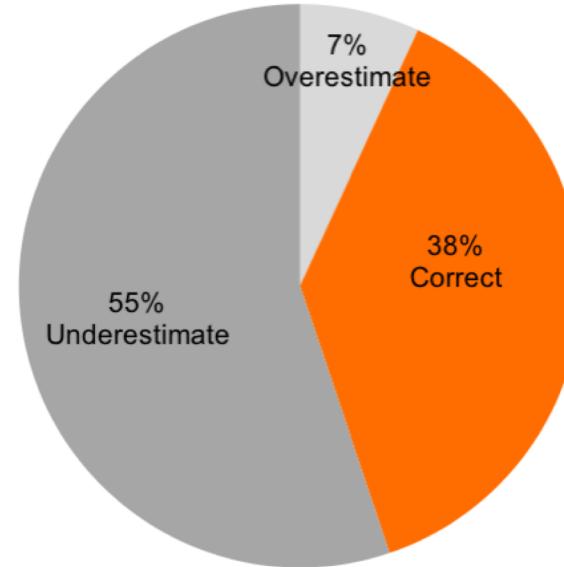

# Why Data Matters

Predictions Without Data

Predictions With Data

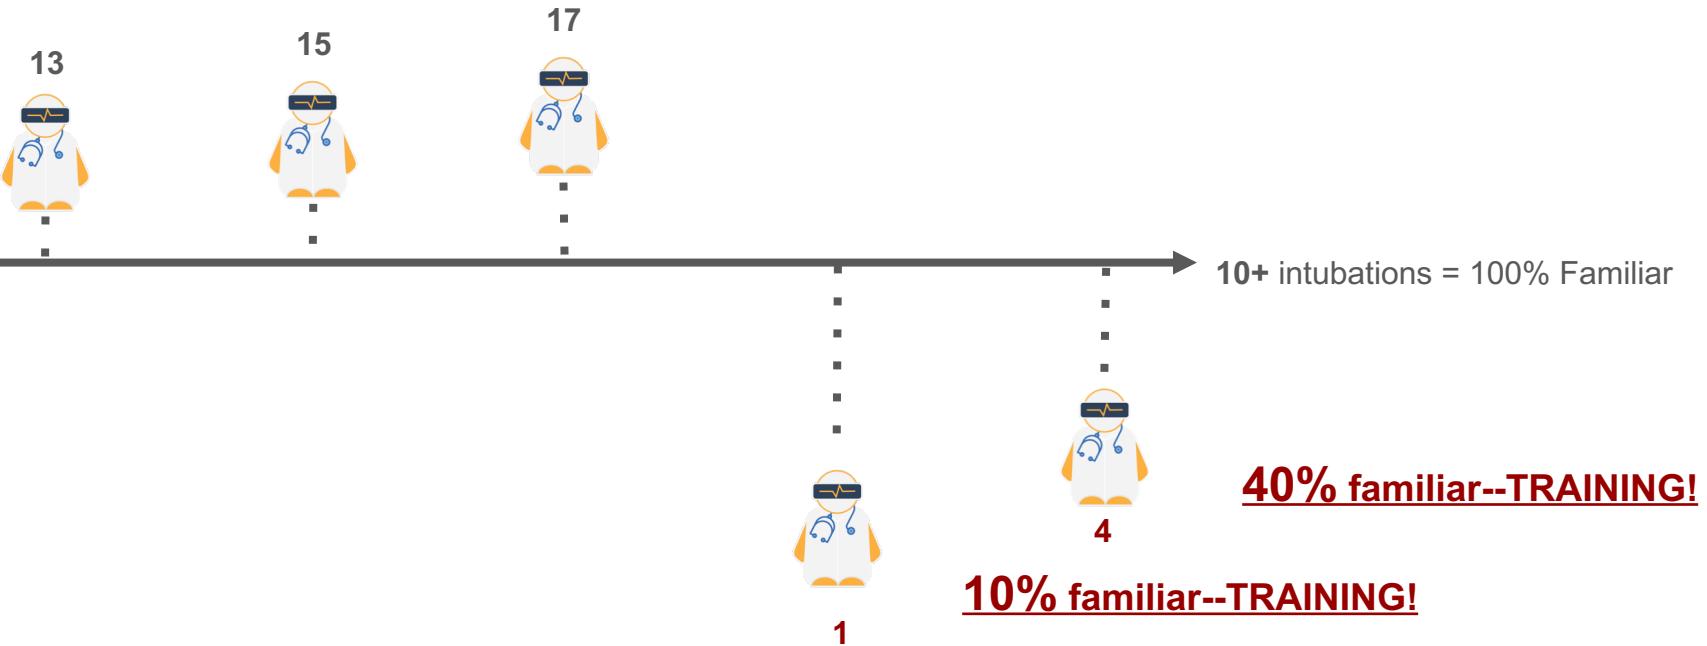

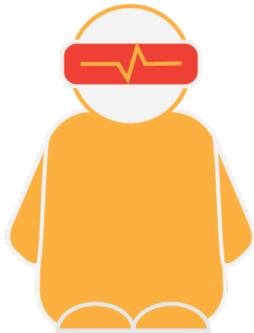

DEMO

# Next Steps

50 intubations in 3 months by 5 physicians

# Thank You!
